

## CUPROVELL

TECHNICAL DATA SHEET  
DEFICIENCIES CORRECTOR

### DESCRIPTION

CUPROVELL is a copper deficiency corrector, formulated from copper sulphate, which has proven to be effective for the prevention of copper deficiencies. The presence in its formulation of heptagluconic acids means that the copper ions, responsible for this type of action, penetrate more quickly into the interior of the plant than other copper-based products.

Copper deficiency is manifested by leaf necrosis. Consequently, the quality of the fruit decreases and abnormal development and colouring of the affected plants is observed.

CUPROVELL is an innovative formulation that allows a rapid absorption and availability of copper within the plant, maximizing the effectiveness of the applications.

### COMPOSITION

#### Guaranteed Composition

Copper (Cu) soluble in water		7.0 % w/w
------------------------------	--	-----------

## DOSAGE AND METHOD OF USE

It can be used both via foliar and root application during periods of high vegetative demand.

### **Foliar application**

- Preventive treatment: 150-200 cc/hL.
- Active treatment: 200-300 cc/hL.

### **Root application**

- Preventive treatment: 1-2 L/ha.
- Active treatment: 2-3 L/ha.

It is advisable to make several applications throughout the crop.

## PRECAUTIONS AND INCOMPATIBILITIES

CUPROVELL is compatible with most fertilizers and phytosanitary products, however a previous mixture is recommended and avoid being mixed with oils and acid reaction products.

CUPROVELL does not require special handling conditions. The product is not flammable or corrosive, however it is recommended:

- Do not store in a container other than the original one.
- S2: keep out of the reach of children.
- S3 / 7/8: keep container in a cool, dry, and well closed.
- S13: keep away from food, drink, and animal feed.

Do not apply in hours of maximum sunlight.

## GUARANTEE

VELLSAM guarantees that the chemical composition of this product meets the characteristics described in this data sheet. Improper storage, times and methods of application, climates and crops, or mixtures with chemical products not specifically

recommended in this sheet or through a written recommendation that accompanies it escape control and therefore responsibility of VELLSAM

No third party is authorized to give additional warranties or instructions regarding this product, and if they do, such warranties or instructions will not be valid or binding on VELLSAM
